

**MINUTES OF THE PLANNING COMMITTEE MEETING OF THE PLEASURE DRIVEWAY AND PARK DISTRICT OF PEORIA, ILLINOIS HELD AT 4:30 P.M. ON TUESDAY, OCTOBER 3, 2023, AT THE BONNIE NOBLE CENTER FOR PARK DISTRICT ADMINISTRATION, 1125 W. LAKE AVENUE, PEORIA, ILLINOIS.**

**MEMBERS PRESENT:** Vice President and Chair Laurie Covington, Trustee and Vice Chair Reagan Leslie Hill, and Executive Director Emily Cahill

**TRUSTEES PRESENT:** Trustees Timothy Bertschy, Joyce Harant, Reagan Leslie Hill, Vice President Laurie Covington, and President Robert Johnson

**STAFF PRESENT:** Executive Director Emily Cahill, Matt Freeman, Mary Harden (v), Jacob Kuban, Kristi Shoemaker, and Alicia Woodworth  
Note: (v) = Attended Virtually

**OTHERS PRESENT:**

**1. CALL TO ORDER**

Vice President Covington called the meeting to order at 4:32 pm.

**2. ROLL CALL**

**3. MOTION TO PERMIT COMMITTEE MEMBER TO ATTEND MEETING ELECTRONICALLY**

No request to attend meeting electronically was received.

**4. MINUTES**

**4.A. Approval of September 5, 2023 Planning Committee Meeting Minutes**

Trustee Hill moved to approve the minutes of September 5, 2023. Motion seconded by Executive Director Cahill and carried on unanimous voice vote.

**5. NEW BUSINESS**

**5.A. GLC Update**

Executive Director Cahill stated that the District is awaiting word from the State on funding. Initially, staff was told that the process would take approximately three months. We are now two months in and anxiously await confirmation of funding. As soon as the grant is officially awarded, staff will put out construction bid packets. November 1-10, the Golf Learning Center will have limited hours while new netting and poles are installed. Staff is also working with Attorney Streeter on next steps for a Letter of Intent with the food and beverage vendors.

**5.B. FPNC Shelter Update**

Mary Harden stated that the new Forest Park Nature Center shelter includes ADA elements such as ramps and two new accessible, striped parking spots. It looks very nice and everyone is encouraged to go take a look and enjoy. There are still some minor tasks needed for completion and it is anticipated they will be finished in the next two weeks.

**5.C. Strategic Planning**

Executive Director Cahill stated that per ongoing discussions regarding strategic planning efforts in the District, attached is a worksheet and the District's commitment documents for review and discussion. As agreed, the target is for all committees to identify goals and action steps that connect to the Commitments and associated pillars in order to focus the work in 2024. Trustee Bertschy asked when is it that the Board would have the opportunity to discuss their vision for large items? Executive Director Cahill stated that as part of the process and thinking about the Commitments, as the strategic planning process goes through each of the committees, it includes the Strategy Ad Hoc Committee which is the Board of the Whole where the Board can discuss.

**5.D. Donovan Park Naming Discussion**

Executive Director Cahill stated that per the request of Trustee Bertschy, Deputy Director Brent Wheeler reached out to Planner Mike Friberg to get some history on the naming of Donovan Park, along with any information that might be available about relatives still living in the Peoria area. Trustee Bertschy stated that it needs to be determined if there is a policy or guidelines on naming Park District spaces and facilities. Executive Director Cahill stated that no, there is not a written policy as such in the policy manual. Through discussion, it was agreed that staff will review other park district naming policies to eventually develop a park naming policy.

**5.E. April – August 2023 Closed Service Request Reports**

Matt Freeman presented the April thru August 2023 Closed Service Reports. Please see Attachment.

**6. PENDING BUSINESS**

None noted at this time.

**7. OTHER BUSINESS**

None noted at this time.

**8. ACTION STEPS REVIEW**

1. Staff will work on better strategic plan proposal
2. Staff will review other park district park naming policies to eventually develop a park naming policy
3. Staff will research any possible deed restrictions for Detweiller Riverside. President Johnson will then contact Peoria Tribe Chief Harper about the renaming of Detweiller Riverside.

**9. NEXT MEETING**

February 2024 (Exact Date to be Determined)

**10. ADJOURNMENT**

At 5:42 pm, Executive Director Cahill made a motion to adjourn the meeting. Motion second by Trustee Hill and carried on unanimous voice vote.

---

Respectfully Submitted by Alicia Woodworth  
Executive Assistant and Board Secretary

**Committee: Planning Committee**  
**Our Commitment to Diversity Equity Inclusion and Accessibility**

Responsible Party:

Pillar:

**Support Community Workforce Development:**

Targeted Outcome *Implement District-wide programming focused on career engagement and exposure.*

Goal 1	Action Step Descriptions	Who's Responsible?	Date to Begin	Date Due	Deliverables	Comments
<i>Build out draft continuum of programming utilizing the Be Anything! branding and program umbrella.</i>	Create branded signage to use at job fairs and power lunches.					
List Resources & Desired Outcomes						
Goal 2	Action Step Descriptions	Who's Responsible?	Date to Begin	Date Due	Deliverables	Comments
<i>Begin implementation of continuum with focus on high school students in 2023 (internships, life skills training)</i>						
List Resources & Desired Outcomes						

Pillar: *Support Community Workforce Development:*  
Targeted Outcome *Offer education supports that encourage capacity building.*

Goal 1	Action Step Descriptions	Who's Responsible?	Date to Begin	Date Due	Deliverables	Comments
<i>Develop data metrics for education programming in the District such that effectiveness of efforts to improve community workforce are trackable.</i>						
List Resources & Desired Outcomes						
Goal 2	Action Step Descriptions	Who's Responsible?	Date to Begin	Date Due	Deliverables	Comments
<i>Participate in relevant community-wide committees and efforts to expand and engage workforce development strategies.</i>						
List Resources & Desired Outcomes						

**FOCUS:** Commitment to Environmental Sustainability

Pillar: *Protection of the Biosphere*

Overarching Strategy

Goal 1	Action Step Descriptions	Who's Responsible?	Date to Begin	Date Due	Deliverables	Comments
<i>Promote reclamation, acquisition, protection, and environmentally sensitive management of open space, wetlands, river corridors, natural habitats, greenways, and trails.</i>	Land acquisition priorities					
	Reclamation of areas in Parks (enhance native species)					
	Update INPC management schedules					
List Resources & Desired Outcomes	Springdale INHL management agreement					
	interpreting and educating park users about our progress of restoring parks					
Goal 2	Action Step Descriptions	Who's Responsible?	Date to Begin	Date Due	Deliverables	Comments
<i>Work cooperatively with volunteer organizations, and other agencies in open space preservation and restoration.</i>	Coordinate Volunteer Steward workdays/trainings					
	Define interim staff to lead efforts as volunteer base is growing					
List Resources & Desired Outcomes						

Pillar: *Protection of the Biosphere*

Overarching Strategy

Goal 3	Action Step Descriptions	Who's Responsible?	Date to Begin	Date Due	Deliverables	Comments
<i>Monitor and plan for ongoing effects of climate change on our local ecosystems and infrastructure.</i>	Inflation Reduction Act opportunities for funding					
	Utility fleet- ID electric UV options					
	Document species monitoring and data collection protocols					
List Resources & Desired Outcomes						
Goal 4	Action Step Descriptions	Who's Responsible?	Date to Begin	Date Due	Deliverables	Comments
<i>Encourage landscape management that will provide habitat for native species of plants and animals.</i>	Identify low use areas in parks suitable for native habitat restoration					
	Enhance current "no-mow" areas with native species of plants					
	Implement Springdale Management Agreement					
List Resources & Desired Outcomes	Expand Prescribed Burn program					

Pillar: *Environmental Education and Interpretation*

Overarching Strategy

Goal 1	Action Step Descriptions	Who's Responsible?	Date to Begin	Date Due	Deliverables	Comments
<i>Create and provide programs, facilities, and exhibits which help people gain understanding and appreciation of nature, and in turn, develop an environmental ethic,</i>	Define metrics for tracking programs and participants					
	Create Interpretive Services Inventory					
	Develop "poster child" interpretive exhibits and marketing efforts

**Peoria Park District  
Commitment to  
Diversity, Equity, Inclusion,  
and Accessibility**

## PEORIA PARK DISTRICT'S COMMITMENT TO DIVERSITY, EQUITY, INCLUSION AND ACCESIBILITY (DEIA)

Peoria Park District Staff and Board believe that diversity, equity, inclusion and accessibility are central to our mission. Diversity of race, color, gender, disability, age, and culture in our employees and those we work with is important to fairly represent the same diversity in our community. The differing perspectives available from a diverse workforce are important to solving the complex problems of our community.

For the purposes of this effort, the following definitions and application guide the focus of the District's efforts:

### *Diversity*

Definition: A range of different ethnicities, gender identities, socioeconomic statuses, sexual orientations, races, cultures, ages, physical and mental abilities or attributes, religions, national origins, and languages spoken.

#### Application:

When planning an offering/policy, staff will consider how it might be received/enjoyed by the widest range of residents (accessibility, language, transportation, cost, geography, etc).

#### Goal:

District offerings serve a group of people that is representative of the population within its service boundaries.

#### Examples:

1. RiverFront Events organizes a variety of festivals that appeal to the major cultural groups in Peoria.
2. Throughout its hiring and recruitment process, the District encourages a diverse applicant pool through the use of job fairs and marketing, with the goal of having a staff reflective of the community.

For questions about the District's Commitment to  
DEIA, please call  
(309) 682-1200 or e-mail [contactus@peoriaparks.org](mailto:contactus@peoriaparks.org)

“Whatever affects one directly, affects all indirectly”

—Martin Luther King Jr.

## *Equity*

Definition: The practice or policy of providing equal access to opportunities and resources to people who might otherwise be excluded or marginalized, such as those who have physical or mental disabilities, financial or geographic barriers to participation, and members of minority groups.

Application: When planning an offering/policy, staff will consider how to help residents overcome barriers to participation.

Goal: Identify barriers to equal opportunity in District offerings/policy and explore strategies to reduce those barriers. When barriers cannot be immediately addressed, consider incorporating possible solutions into long-term budgeting and planning.

Examples:

1. Scholarships are provided to families with low incomes in order to make District offerings affordable.
2. HISRA provides staff support to ensure that children with special needs enjoy the same programs as children without special needs.

## *Inclusion*

Definition: The act of creating an environment in which diverse groups of participants will be welcomed, respected, supported and valued..in all Peoria Park District efforts and activities, both internal and public-facing.

Application: When decisions around District offerings and policies are made, staff will consider how diverse stakeholders will be welcomed and encouraged to participate and make their voices heard.

Goal: The Peoria Park District's spaces and offerings enable and encourage all participants to feel respected, have a sense of belonging, and feel welcome to participate and achieve to their potential.

Examples:

1. Every year, a survey is sent to all District staff encouraging them to provide anonymous feedback about the workplace environment.
2. In the summer of 2020, the Peoria Park District Board of Trustees passed a welcoming resolution affirming Peoria parks are meant for a diverse group of patrons.

## Accessibility

Definition: The act of “Accessibility” means that a person with a disability is afforded the opportunity to acquire the same information, engage in the same interactions, and enjoy the same services as a person without a disability in an equally effective and equally integrated manner, with substantially equivalent ease of use. The person with a disability must be able to obtain the information as fully, equally and independently as a person without a disability.”

Application When decisions around District offerings and policies are made, staff will consider how persons with disabilities will be welcomed and encouraged to participate with any relevant barriers reduced or eliminated.

Goal: The Peoria Park District’s spaces and offerings will be welcoming and encouraging to all, such that all participants will be able to access like experiences.

Examples:

1. Construction projects will meet or exceed ADA standards for accessibility.
2. Staff will work to provide employment opportunities for persons with barriers.
3. HISRA staff will actively participate in DEIA strategy and planning.

As part of the District’s efforts to provide and promote equity in the community we serve, a four-pronged approach has been identified as follows:

This four-pronged approach strives to build sound strategies based in research and best practice, but is also personalized to the nuances that make up our Peoria community, while considering the reach of the Peoria Park District and our mission. For each approach, the District has identified strategies to focus our work. These are listed on the following pages.

**The Peoria Park District leadership team will develop an annual action plan tied to these pillars and present them to the DEIA committee and to the Board of Trustees for review. Depending on the data points, progress reports will be provided to both groups at least quarterly.**

## *Pillar #1*

### **Equitable Access to Parks, Facilities, and Programming:**

#### *Strategies*

1. The Peoria Park District will strive to provide parks, facilities, and programming geographically close to underrepresented populations.
2. The Peoria Park District will collaborate with community partners whenever possible to provide parks, facilities, and programs where the District does not have its own representation.
3. The Peoria Park District will strive to improve its methods of monitoring and data tracking to improve the effectiveness and relevance of its services.
4. The Peoria Park District will strive to reduce all obstacles to community use of Park District parks, facilities, and programs.

# OUR DISTRICT FOCUS

## *Pillar #2*

### **Focus on the PPD Workforce First.**

#### *Strategies*

1. The Peoria Park District is an Equal Opportunity Employer and will not discriminate on the basis of race, color, religion, sex, sexual orientation, pregnancy, national origin, citizenship status, age, marital status, disability, military status or unfavorable discharge from the military, protected veteran status, ancestry, or on the basis of any characteristic protected by law as outlined in the Park District's Equal Employment Opportunity Policy.
2. The Peoria Park District will actively work to increase the applicant pool for all District jobs in an attempt to mirror the community it serves.
3. The Peoria Park District will strive to retain, train, and promote minorities, women, and those with disabilities within its workforce.
4. The Peoria Park District will strive to improve methods of monitoring and data tracking to improve the effectiveness of its recruitment and retention efforts targeting underrepresented populations.
5. The Peoria Park District will strive to reduce administrative obstacles to the recruitment and advancement of those who are underrepresented in its workforce.

*Pillar #3:*  
**Actively Promote and Encourage the Diversity, Equity, Inclusiveness  
and Accessibility  
of PPD-Funded Contractors and Suppliers:**

### *Strategies*

1. The Peoria Park District seeks to encourage maximum participation of minorities, women and those with disabilities on Park District construction, procurement, and maintenance contracts.
2. The Peoria Park District will continue to set participation goals and encourage contractors and staff to track and meet the goals.
3. The Peoria Park District will strive to increase capacity and participation of minority, women, and disabled labor as well as businesses owned by minorities, women, or disabled individuals for Peoria Park District projects.
4. The Peoria Park District will strive to reduce administrative obstacles to increase diversity of Peoria Park District funded contractors and suppliers.

# OUR DISTRICT FOCUS

## *Pillar #4*

### **Support Community Workforce Development.**

#### *Strategies*

1. The Peoria Park District will seek to increase the community capacity of underrepresented workers through job skills training and adult learning.
2. The Peoria Park District will collaborate with and support community partners engaged in increasing the diversity of our community workforce whenever possible.
3. The Peoria Park District will participate in geographically targeted outreach in underrepresented areas to educate and recruit minority workforce.
4. The Peoria Park District will work with labor unions to support efforts to increase representation of those who are traditionally underrepresented within union ranks.
5. The Peoria Park District will strive to improve methods of monitoring and data tracking to improve the effectiveness of its efforts to increase the diversity of its workforce.
6. The Peoria Park District will strive to reduce administrative obstacles to supporting community workforce development.

**Peoria Park District  
Commitment to  
Environmental Sustainability**

## **THE PEORIA PARK DISTRICT'S COMMITMENT TO ENVIRONMENTAL STEWARDSHIP**

The Peoria Park District has been, and will remain, a leading force in the preservation of historical, cultural, and natural environments of the community.

As guardians of a quality environment, the Peoria Park District promotes and practices the conservation, preservation, and restoration of our unique natural heritage. The District will stand as a role model in demonstrating and practicing sound environmental policies and practices:

1. To promote facility management and maintenance which reduces pollution and waste; incorporates energy efficiency, has a positive impact to reduce the District's carbon footprint; and preserves historic and aesthetic features.
2. To promote and practice open space planning and preservation which reflects environmentally sensitive stewardship and enhances ecosystem resiliency in the face of climate change on all Park District lands.
3. To provide knowledge, opportunities and encouragement for Park District employees and visitors to practice low impact resource use within our Parks and community.

For questions about the District's Commitment to  
Environmental Stewardship, please call  
(309) 682-1200 or e-mail [contactus@peoriaparks.org](mailto:contactus@peoriaparks.org)

We have not inherited the Earth from our parents.  
We are borrowing it from our children.

As park and recreation professionals, it is imperative that we take a leadership role in conservation, preservation, and restoration of the natural environment through interpretation, planning, and management, while providing quality recreation opportunities. Our planet is faced with increasing threats of ecological catastrophe from many angles; climate change, habitat destruction, species extinction, and loss of biodiversity. It is our intent to be a role model in demonstrating and practicing sound environmental policies and practices. We strive to be an example of sustainability and resilience to mitigate negative ecological impacts.

This Commitment to Environmental Stewardship outlines environmental goals which can be divided into 5 major categories:

- 1. Protection of the Biosphere;**
- 2. Environmental Education and Interpretation;**
- 3. Conservation of Energy;**
- 4. Use of Environmentally Sensitive Products; and**
- 5. Reduction of and proper Disposal of Waste.**

Staff will develop action steps for meeting these goals as part of our strategic planning process. As part of this strategic process, baseline data will be a part of gauging success in achieving goals. The process will also become an important tool in our annual capital and operational budgeting process. This commitment and the goals that follow will be a part of our overall PPD Strategic Planning Process.

# OUR DISTRICT FOCUS

## *Category #1: Protection of the Biosphere*

**To safeguard the biodiversity of our region by maintaining quality and diverse habitats in land managed by the Peoria Park District through conservation, preservation, and restoration.**

### *Goals* (not in order of priority)

- a.** Conduct ecological monitoring and citizen-science to keep abreast of environmental and ecological conditions of our parks. *i.e. Keep our fingers on the pulse.*
- b.** Focus local universities and conservation agencies on our stewardship needs.
- c.** Monitor and plan for ongoing effects of climate change on our local ecosystems and infrastructure.
- d.** Promote reclamation, acquisition, protection, and environmentally sensitive management of open space, wetlands, river corridors, natural habitats, greenways, and trails.
- e.** Work cooperatively with volunteer organizations, and other agencies in open space preservation and restoration.
- f.** Take appropriate steps to identify and protect rare and endangered species and plant communities.
- g.** Practice an ongoing Integrated Pest Management program which includes: use of preventive maintenance; selection of species which require little care; use of natural control methods; early detection of problems; and proper use of pesticides only in amounts deemed necessary based on park function and ecological necessity.
- h.** Consider environmental impacts that projected climate change will pose during the planning phase of all projects and developments.
- i.** When developing new or renovating existing facilities, sustain or mimic a site's pre-development hydrologic regime by using techniques that infiltrate, filter, store, evaporate, and detain stormwater runoff close to its source.
- j.** Encourage landscape management that will provide habitat for native species of plants and animals.
- k.** Protect and restore erodible watershed lands, while providing access for recreation if appropriate.
- l.** In heavily urbanized areas of our community, seek ways to restore suitable native habitat where natural areas are lacking.

## *Category #2: Environmental Education and Interpretation*

**To provide citizens with knowledge, awareness and appreciation of our natural heritage, its relationship to the District's mission, and its enjoyment through low impact recreation.**

### *Goals* (not in order of priority)

- a.** Create and provide programs, facilities, and exhibits which help people gain understanding and appreciation of nature, and in turn, develop an environmental ethic, throughout our operation scope.
- b.** Partner with the community to provide equitable access to environmental education.
- c.** Promote leisure activities which are environmentally friendly and have the least impact on rare or threatened habitats.
- d.** Provide access to and interpretation of cultural, historical, scenic and aesthetic resources within the local environment.
- e.** Serve as a role model through wise use and reuse of resources by employees both at work and at home.
- f.** Work cooperatively with groups that have a parallel environmental mission in protecting the environment.
- g.** Provide opportunities for staff development to keep up on the latest training concerning environmental and ecological issues and practices to better the District's knowledge base on such topics as; green infrastructure, climate change, atmospheric carbon reduction, and interpretive techniques.
- h.** Provide in-house training and discussions in environmental practices and policies for all District staff.

# OUR DISTRICT FOCUS

## *Category #3: Conservation of Energy*

**To invest in improved energy efficiency, renewable energy sources, and conservation in operations.**

### *Goals* (not in order of priority)

- a.** Conduct energy audits and improve efficiency by retrofitting and/or replacing appliances, mechanical equipment, and materials to improve building energy efficiency.
- b.** Improve efficiency of heating, cooling, and mechanical systems by weatherizing, and installing energy efficient systems whenever possible.
- c.** Improve building efficiencies by designing landscape that works in conjunction with building design to enhance energy efficiencies (e.g. solar gain, wind infiltration, stormwater management)
- d.** Develop incentive programs to encourage employees to use more environmentally sustainable methods of transportation.
- e.** Working cooperatively with other municipalities in planning trail projects to make the community more bicycle and pedestrian friendly.
- f.** Implement steps to reduce the overall carbon footprint of the district through carbon fuel reduction strategies by focusing efforts on reduction of fossil fuel usage for transportation, ground maintenance, and building controls.
- g.** Refine technology deployment strategies to improve the efficiency. (*i.e., staff to meet remotely and collaborate effectively without the need to travel to meetings or the use of building automation systems to monitor and reduce mechanical and energy usage*)

### *Category #4: Use of Environmentally Sensitive and Safe Products*

**To use products which are safe and effective, and which minimize adverse environmental impacts.**

#### *Goals* (not in order of priority)

- a.** Use cleaning agents which are safe and biodegradable.
- b.** Procurement of materials for District-wide use should emphasize the use of recycled, recyclable, and lowest impact products available.
- c.** Develop methods of streamlining procurement and budgeting (capital and operational budgets) processes to better quantify our reduction strategies. *(i.e. what is the net effect of some of the strategies we deploy on fossil fuel use)*
- d.** Pesticide use will be based on best management practices established by research and science. It will focus on the lowest impact treatments as identified in industry research and experience. *(i.e. not solely dependent on manufacture-based research)* All pesticide use will be in compliance with state and federal regulations.
- e.** The District will keep up with industry best management practices for reducing environmental impacts of chemicals, products, and materials throughout the District's operations.

# OUR DISTRICT FOCUS

## *Category #5: Reduction of Waste*

**To minimize the creation of waste, especially hazardous waste, and whenever possible to recycle materials and use recycled materials.  
To dispose of wastes through safe and responsible methods.**

### *Goals* (not in order of priority)

- a. Help to promote community-wide recycling efforts and provide on-site recycling for users of our parks, where possible.
- b. Manage landscape waste produced in parks to prevent accelerating the release of atmospheric CO<sub>2</sub>
- c. Manage facilities, programs, and events in ways that reduce the production of non-recyclable waste, or waste that can contribute to community litter. *(i.e. plastic bags, balloons, etc)*
- d. Use a District-wide approach for recycling efforts, reuse options, and ways of reducing waste.
- e. Use a District-wide approach to coordinate Hazardous Material use, monitoring, reduction, and disposal that is compliant with State and Federal regulations; in conjunction with PPD Environmental Health and Safety program.
- f. Work with other local agencies to promote hazardous waste recycling and disposal on a community-wide level.

**Peoria Park District  
Commitment to  
Vibrancy**

## PEORIA PARK DISTRICT'S COMMITMENT TO VIBRANCY

The Peoria Park District is committed to our mission to contribute to healthy and vibrant communities by responsibly using our resources to offer high quality parks, recreation, and education experiences to those who live, work, or play in our District.

Many of the elements in the District's mission are clear and direct, but the concept of vibrancy can be defined in many ways and measurements. Today, in local urban planning, it is commonly tied to the intensity of activities offered, the diversity of land-use configurations, and the accessibility of a space or place. Most readily, these suggestions for scope most naturally tie to consistent and convenient access to green space and walking trails, accessible and engaging events and programming, and ongoing services and supports that engage and promote health and wellness.

As the District seeks to focus its efforts to have the most impact possible on the positive trajectory of the communities we serve, our staff and elected Board of Trustees are committed to continuing its tradition of providing important building blocks to engage and inspire people to live healthier, happier lives. With this document, the District seeks to provide a framework for evaluation of these efforts.

To that end, the District's Commitment to Vibrancy focuses on four key components:

- 1. Connection**
- 2. Resiliency**
- 3. Health**
- 4. Inspiration**

Annually, the Peoria Park District leadership is committed to developing an action plan tied to these points of emphasis and will present them to the District's programming committee and to the Board of Trustees for review. Depending on the data points, progress reports will be provided to both groups at least quarterly.

For questions about the District's Commitment to Vibrancy, please call (309) 682-1200 or e-mail [contactus@peoriaparks.org](mailto:contactus@peoriaparks.org)

# OUR DISTRICT FOCUS

## *Pillar #1: Connection*

**The tie that binds communities is all about connection;  
and linking people goes beyond our infrastructure.**

Social engagement is essential to the increased connectivity between people, places and things that can impact quality of life and develop loyalty to a community and sense of place... and the spaces and places cared for and provided by park and recreation agencies like ours provide the backdrop for these connections.

Our Peoria Park District owns or manages nearly 9000 acres of land. This land is used to provide access to green space across our network of regional and neighborhood parks. The quality of life in the Peoria region is significantly impacted by the Peoria Park District and its long-standing commitment to providing access to high quality parks, facilities, and programs that offer spaces for engagement. If you've lived in Peoria your whole life, you might still not think about how big that number is or you might take that 9000 acres of stewarded land for granted and think that every community is like this one. But in fact, it isn't.

The typical parks and recreation agency in the United States maintains an average of 9.9 acres of park land for every 1000 residents it serves. By contrast, the Peoria Park District maintains more than 66 acres of park land for those 1000 residents. This is significant... and it positively impacts the quality of life for those who live in our communities.

Looking forward, the District must focus on how to not only improve the connections that it helps to build and their impact, but also on how to tell this story and advocate for the role of parks and recreation as a building block for economic and population growth in the Greater Peoria area.

*Points of emphasis will include:*

1. Develop a dashboard to better collect and share data regarding usage and reach of the District.
2. Gather and evaluate feedback from users to include a survey disseminated every other year in the community.
3. Refine the arguments for the impact of parks and recreation on the quality of life in the communities we serve.
4. Evaluate the benefits of seeking accreditation through either or both state and national associations that would help to enhance and support a positive reputation and build our capacity for sharing our story.
5. Improve collaboration with public officials focused on highlighting the Peoria Park District in the efforts to attract and retain new residents and economic development.

# OUR DISTRICT FOCUS

## *Pillar #2: Resiliency*

**Resiliency is reflected in the ability to adapt to change in ways that allow faster recovery from environmental, social or economic shifts.**

At its foundation, the notion of resilience acknowledges that communities will face change – sometimes dramatic change – and that they must be prepared to not only survive the challenge, but to use these as opportunities to get better during these difficult times.

In the last ten years, our Peoria communities have changed and the District is working to change with it. With a smaller, more agile workforce, combined with growth in its inventory, the District must find ways to use its resources diversify and stabilize its revenue sources to include investments and partnerships with the private sector.

Likewise, as climate change is causing more volatile weather events, the District is especially susceptible to incidents that could impact our ability to provide consistent, quality services and must be prepared to shift quickly and effectively.

To make solid plans for responsiveness, the District must focus its efforts on better data collection and evaluation in order to ensure that it is meeting the needs of those it serves. Data points must include both inputs from those who access the District's supports and those who don't.

### *Points of emphasis will include:*

1. Update financial policies that focus on sustainability of the District financially through responsible stewardship of investments and reserve balances.
2. Develop a more specific curriculum focused on the impacts of climate change on our communities.
3. Revisit and reaffirm processes for acquisition of resources AND divestment of assets where it supports long-term impact on the communities.
4. Similarly, analysis of programs should also be considered that allows for innovation and impact through modification of program inventory to meet the changing needs of our communities.

# OUR DISTRICT FOCUS

## *Pillar #3: Health*

**In addition to providing for all of our basic needs, healthy communities work to ensure residents benefit from access to education, housing, jobs, the ability to live without fear of violence, freedom from environmental hazards, and access to a meaningful built environment.**

In addition to spaces and places focused on improving physical health, the District's outdoor amenities support mental health as shown during the pandemic.

Education has been a hallmark of District programming and is highlighted by our support of GED education in the 61605 zip code, as well as quality out-of-school programming that features STEAM and life skill training. An added emphasis on workforce development, especially career exposure and engagement, is a newer space for the District, but one that can have significant impact.

At its very core, the District must have positive impact on health and wellness to be an effective part of the communities we serve. Its willingness to expand its work to emphasize education and violence prevention make it an innovator in this space.

### *Points of emphasis will include:*

1. Develop a workforce development continuum that starts with exposure to careers, followed by education and engagement, will be a key focus of our work to show our youngest patrons that they can “be anything” that they want to be.
2. Evaluate the impact of the “Summer of Fun” effort and recommendations on its role in future access to vibrant programming for youth in our communities.
3. Create a campaign to highlight the impact that parks and recreation has on mental health to include collaboration with local health providers to engage and encourage use of our many assets.
4. Formalize education goals and expectations for programming across the District, with emphasis on utilizing the expertise of Peoria PlayHouse Children's Museum staff across our variety of programs.
5. Build an inventory of programs that compliment each other and allow for clear communication to the public for their participation.

# OUR DISTRICT FOCUS

## *Pillar #4: Inspiration*

**In the most livable of cities, arts and culture blend with bustling business, shopping, and entertainment districts to create desirable places to live, work and play.**

These cities inspire and connect inhabitants, while promoting the healthy lifestyles that make them places where people enjoy spending time and achieve prosperity. Not just in our nation, but around the world, people are moving to urban cores, drawn there by a desire to belong and engage with communities of distinctive, authentic character.

There are so many possible elements of the Peoria Park District's past, present, and future that fit in this description! The District strives to be authentic and distinct in its supports of our communities. It works daily to enhance the lives of those who live, work and play here. Inspiration can come in the form of programming, events, or facilities supported by the District that would not otherwise be in a community of our size. It can come through collaboration or provision of space for private initiatives that meet shared goals.

Because of the depth and breadth of the work we do in this space, it is critical that the District manage its resources and creativity in ways that are most beneficial to our community and that call upon the energy and supports that can come with collaboration.

The District must focus on finding that mechanism that will help it to effectively evaluate its program offerings such that it is able to allocate resources to those endeavors that have the greatest impact. That statement must honor that impact comes in different forms, the identification of which must be the first step in creating a consistent process for prioritization.

### *Points of emphasis will include:*

1. Facilitate the First Annual Park-A-Palooza in 2023 and work to build on it in future years with the help of tourism grant funds as available.
2. Build a quality, consistent evaluation process for programming that encourages participant feedback. This evaluation process should be founded in an overall focused consideration of how program resources in the District have the greatest impact.
3. Continue to seek out public-private partnerships that will support innovation and sustainable programs and opportunities for those who live, work, and play in the communities served by the District.
4. Inspire and encourage of the PPD workforce through training and fostering of an internal culture that values innovation, creativity, and collaboration.

## Peoria Park District Board of Trustees

### PRESIDENT

ROBERT L. JOHNSON SR.

### TRUSTEES

TIMOTHY BERTSCHY

LAURIE COVINGTON

JOYCE HARANT

REAGAN LESLIE HILL

STEVE MONTEZ

ALEXANDER SIERRA

### EXECUTIVE DIRECTOR

EMILY G. CAHILL

Per our ongoing discussions regarding strategic planning efforts in the District, I am attaching a worksheet and the District's commitment documents for your review and our discussion.

As agreed, our target is for all committees to identify goals and action steps that connect to our Commitments and associated pillars in order to focus our work in 2024.

I look forward to the process!

Thank you in advance!

September 11, 1968

To All Board Members:

We have reached a point where naming of newly acquired park lands needs to be done for administrative purposes. The Board has charged the Staff with making recommendations and we, herewith, offer suggestions for Board consideration.

You will recall we sent to you a pamphlet discussing naming of parks and recreation facilities as a basis for our discussion. As you no doubt noted, there are many valid reasons for a choice of name. I, personally, after thirty years of park and recreation work have some very definite ideas which are incorporated in the accompanying statement. The Staff has also contributed to the contents.

This is the starting point for a Board and Staff discussion of a rather complex subject.

Respectfully submitted,

Rhodell E. Owens  
Director of Parks and Recreation

## NAMING OF PARKS AND RECREATION FACILITIES

### Introduction

As has been aptly phrased, the human mind "explodes" with ideas where man begins to consider the naming of parks and recreation facilities. Naming of properties and facilities at times becomes a deeply emotional matter, and guidelines become important, if regrettable name selections are to be avoided.

First of all, a Park District such as ours with a historical tradition of philanthropy will naturally call for names in honor of those individuals who have unselfishly given their money to make the park possible. This is indeed appropriate and demands constant encouragement. Approximately 80% of our present 7,000 acres of park holdings have been made possible by philanthropic individuals or foundations and trusts.

The naming of park areas can denote pleasure and be euphonious, ear catching descriptions of the area and in turn describe the pleasures to be found there, if there are no other compelling reasons for other names. Parks are fun and denote pleasant experiences, and the names can well be in keeping with this spirit. Glen Oak Park with its many White Oak Trees is pleasant and descriptive; Grand View Drive is extremely accurate in its connotation of the actual pleasures to be derived there; Forest Park is most illustrative of the large forested area; Northmoor is a catchy name for a pleasant golfing experience and Rocky Glen is an accurate and pleasing name describing the rocky out croppings in a wooded glen.

In keeping with this philosophy the following statements are put forth for formulation of policy:

#### POSSIBLE POLICY STATEMENTS

1. No park shall be named for a living person, except when substantial donations in excess of the park dedication policy are offered to the Park District for park and recreational purposes and wherein the donar stipulates a name as being a consideration of the donation. In such case, the Park Board will have prerogative of accepting or rejecting such an offer.
2. No existing property, previously named, shall have portions of the park re-named. A building or facilities that does not substantially reduce the original acreage or change the over-all name of the area, may be given a different name.
3. Quite often at the request of donors, pleasing names are selected with an accompanying sub-title of a family name carried on all signs, descriptive literature and official designation such as "TANGLEWOOD", the Kate Reynolds Memorial Park. In this manner, the gift is properly commemorated but the popular name is commonly held. This can be done with the consent of the donor or if there is no donor, an area can be memorialized to an outstanding individual by means of this sub-title.
4. Consideration of names memorializing individuals shall be only after at least a year's time has elapsed after death.
5. Park areas shall be named promptly to assure unofficial designation from becoming the permanent names.
6. Names of former Park Board members considered unquestionably outstanding in their contribution of leadership, time and money shall be considered prime candidates for park and facility name memorialization.
7. It shall not be the policy to name facilities after employees unless they have displayed unusual professional leadership, or valor beyond the call of expected duty.
8. Rooms within buildings may be given specific names in memorialization.
9. When construction of a new park or facility is begun, appropriate ground breaking ceremonies shall be held to acquaint the public with the event. The official name should be agreed upon by the Board before such an event.
10. Dedication for public use with appropriate plaques and markers in good taste to honor the people who have contributed, even though the facility is not named after them; to historically note the particular property and the officials responsible for the creation of the park or facility, should be part of the naming procedures.
