5.B. Bradley Park Columbus Statue Replacement Public Feedback Discussion

Dr. Bernie Goitein, President of the Uplands Neighborhood Association, addressed the Planning Committee thanking staff for their recommendations on the statue replacement at Bradley Park. In providing additional feedback, he would like the size of the statue to be a consideration. One of the recommended statues staff presented he believes, is too small and would like to see something that evokes beauty and nature and befitting to the park, possibly something like the DuSable statue.

JR Hinchee of the Uplands Residential Association stated that he shared the staff's statue recommendation with the Uplands Residential Association members where they thought it wasn't bad, but it felt too small for the space as compared to what was there previously.

Minutes: Planning Committee March 13, 2024 Page 1 Becky Fredrickson stated that staff was actually proposing a permanent sculpture, but not one specific. The one pictured was a statue that the community reacted very favorable to and as such, that statue was shown as a possibility but is not the only choice. Ultimately, staff is just recommending that a permanent statue be placed in that space with the actual statue to be determined.

Trustee Hill MOVED TO RECOMMEND to the Board for approval a permanent sculpture to be placed at the former Columbus statue space at Bradley Park. Motion seconded by Executive Director Cahill and carried on unanimous voice vote.

5.C. Resolution Between the Pleasure Driveway and Park District of Peoria Illinois and the Peoria Zoological Society Regarding Peoria Zoo Capital Improvements and Fundraising Trustee Hill moved to recommend to the Board for approval the Resolution Between the Pleasure Driveway and Park District of Peoria Illinois and the Peoria Zoological Society Regarding Peoria Zoo Capital Improvements and Fundraising Motion seconded by Executive Director Cahill and carried on unanimous voice vote.

7. OTHER BUSINESS

Becky Fredrickson provided an update concerning the Detweiller Riverside clubhouse building proposal process, stating that two proposals were received. Those proposals are currently being reviewed and staff intends to start communication and negotiations on one of those proposals. At that point, staff will report back to the Planning Committee on the outcome and eventual Board approval.

Trustee Harant asked the status of the sustainability plan and specifically, renewable energy and sustainability. Executive Director Cahill stated that the signed ICJIA grant contract was just received approximately two weeks ago. That will allow staff to develop and send out a consultant RFQ this spring. At the same time, the District is looking at, as part of the 2024 budget, hiring a Land Manager who will be added to the Planning team and will provide more resources to monitor and help to support that team.

8. ACTION STEPS REVIEW

1. Board members are encouraged to submit any possible contacts and names they may have to send the energy consultant RFQ to.

2. If approved by the Board, staff will look into the local permanent art statuary options and pricing for installation in Bradley Park.
